Safer Internet Day 2023

The theme of safer internet day 2023 was:
Want to talk about it? Making space for conversations about life online.

Reception read a story called 'Hanni and the Magic Window' which helped them to discuss important adults they could talk to, if they witnessed something upsetting.

Year One had fun going around the school looking for devices.

Year 2 had a great discussion about internet safety and completed the Like Ladder activity: they ordered their favourite online activities.
Year 2 then completed an activity on Purple Mash called 'This and That' to show which activities they preferred to do online.

Safer Internet Day 2023

In Year 3 as a starting activity they asked a friend to find different people in the room, who do different activities online. Then some questions were displayed to discuss while doing the activity. Then they did 'Lets go Online activity' showing how long they spend off and online.

In Year 4, they played a game called Pick a Side, where they shared their experiences online, then they had fun completing the activity on Purple Mash where they gave good tips for who to speak to about any worries being online.

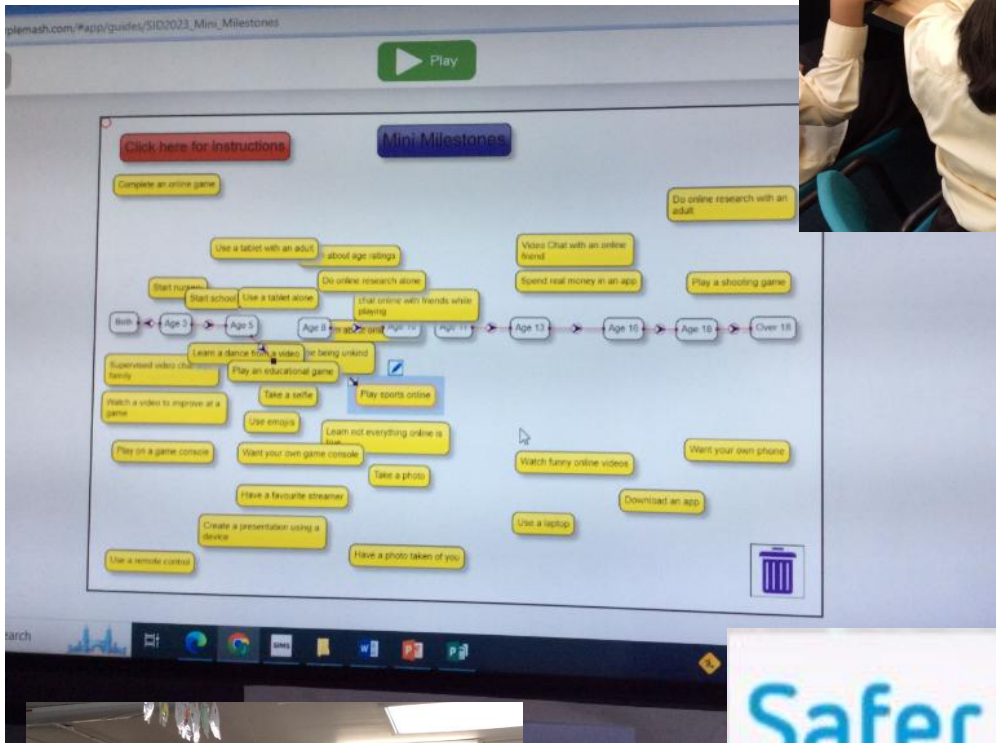

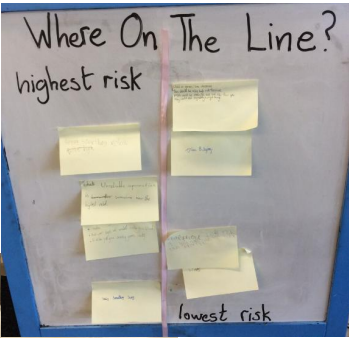

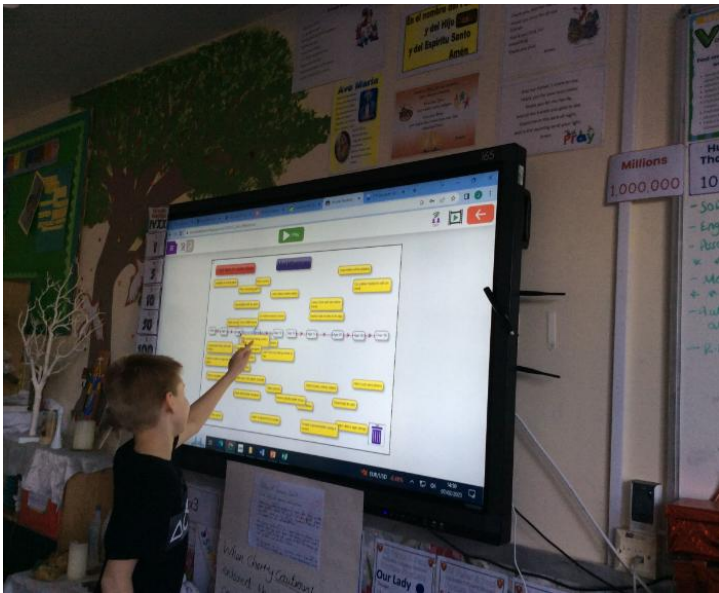

In Year 5 they completed the AlphaNet where they thought of online activities for every letter in the alphabet. Finally they completed the Give me Three activity on Purple Mash where they named three positives and three negatives of being online.

Year 6 filled out the Mini Milestone activity as a class and ordered online activities based on what age they thought was suitable for children to be completing particular activities online. They also filled in an internet charter and shared their thoughts about how to make a safer internet for children all over the world.

Photographs from Safer Internet Day 2023

All the children in the school from Reception to Year 6 had fun and learned a lot about how to be safe online.
